2021 Leadership Coaching

The Cape Cod Church summer internship program aims to develop future church leaders who will in turn inspire communities to live fully for God. As part of that mission, we want to give you opportunities to grow your leadership skills through weekly coaching sessions with Senior Pastor Ben Feldott and select marketplace leaders.

The Leadership Coaching Series will give interns the unique opportunity to glean wisdom from a diverse set of Christian leaders. These men and women have experience in leading and effecting change in the church, classroom, missions field, business sector, and beyond.
